Dear Water and Sewer Customer,

February 10, 2014

North Bay Village has contracted with Water Company of America to examine utility accounts throughout the Village. The purpose for conducting this research is to ensure that customer accounts are being fairly billed for water, sewer, storm water and sanitation collection services.

Water Company of America, as a part of their activities, may be examining your water meter(s), sanitation bins and the paved surfaces of your property.

Thank you in advance. If you have any questions or would like to verify any of the information stated herein, please do not hesitate to contact me, or any other Village staff, at any time.

Sincerely,

Frank Rollason,  
Village Manager
